Early Childhood 4/5 Generalist Endorsement

The set of four on-line courses will be offered in rotation. The Early Childhood Generalist Endorsement will allow teachers holding a standard Ohio license in PK-3 to add 4th and 5th grade in all subject areas. This endorsement cannot be added to any other teaching license. All courses also serve as general, graduate level, professional development courses or courses in the Master of Arts in Integrated Studies.

Courses:

EDUTL 5281: The Development of 4th/5th Grade Learners Across Multiple Contexts. The main purpose of this course is to aid students in acquiring a working understanding of the physical, cognitive, and language development of children in the 4th and 5th grades. Special attention will be paid to how different contexts (community, family, school/classroom environment, peer group, media, etc.) relate to the development of 4th and 5th graders.

EDUTL 5282: The Social Transitions of 4th/5th Grade Students in School and at Home. Early adolescence is a time of transition for children in their peer groups, in their families and in their cultural communities in ways that impact their orientation toward academic achievement. This course is focused on the social and emotional development of the early adolescent in society, at home and in the classroom setting.

EDUTL 5283: Teaching Mathematics, Science, and Culture in the 4th/5th Grades. This course is related to teaching mathematics and science with consideration of pedagogy, content, assessment and equity. Constructivism is the primary pedagogy emphasized in this course as a methodology to teach for student understanding, and to increase teacher understanding of relationships between the two content areas and the cultural context of the 4th and 5th grades.

EDUTL 5284: Integrating Language Arts and Social Studies in the 4th/5th Grades. The focus of this course is on the curriculum, pedagogy and integration specific to the 4th and 5th grades in language arts and social studies. Integration is a methodology for the teacher to teach in a framework that combines a heavily emphasized content, language arts, with social studies.
